Dear Mrs Gulley

Thank you for your prompt reply to our letter concerning the seeming absence of an opportunity to discuss our concerns for Newport

We are writing to request that the Agenda item, *"Is Policy 3 clear and does it provide an appropriate framework for managing development in Newport"* be dealt with by you at a later date, i.e. during session 6 rather than session 1

The reasons for this request are that

- a) As Mrs Llewellyn was using a defunct email address we had not been receiving programme information in a timely manner
- b) Having assumed that this matter would be dealt with under the Housing session, but hearing only by your letter of yesterday that this is not the case at the moment, we require next week to be sure that we have supplied sufficient supporting evidence to the Examination Library
- c) We have conducted a referendum about future new housing for Newport, the count of which does not take place till after session 1

However, we are anxious that the referendum result should be brought to the LDP2 process but cannot supply this information by 17<sup>th</sup> June

We should be very grateful for your understanding if you would re-arrange the programme to meet this request, or alternatively agreeing to receive supporting information from us after 17<sup>th</sup> June

Thank you

Yours sincerely

Sandra Bayes, Secretary, Newport Area Environment Group
